分析與購買與否之相關性

資料使用：

- 以三個月為單位，由2019/04往回切
- 整理出之BEHAVIOR FEATURE 統計數

發現：

- 客戶將商品放入購物車的次數，和購買商品的次數之相關性最為顯著。
- 作業系統中，是否使用IOS與購買次數的相關性最高。

建議：

CART,VIEWSALEPAGECATEGORY,... (0.4以上的)等FEATURE與購買次數之相關性較高，在建立MODEL做預測時，優先採用這些FEATURE
